

**FAR NORTH COAST
Respite & Carelink Centre**

SERVICE UPDATE

The Department of Health and Ageing are in the process of changing all the Centre phone numbers to one 1800 number.

We have been operating with two 1800 numbers for many years,

Commonwealth Carer Respite Centre	1800 059 059
Commonwealth Carelink Centre	1800 052 222

As part of the “Way Forward” and the resulting streamlining of Centre functions our phone number for both the above services in the near future will be **1800 052 222**

When the changes occur we have been informed by the Department that any carers phoning the 1800 059 059 number will automatically be transferred to 1800 052 222. The 1800 059 059 number will be gradually phased out over an extended period of time.

In the future Fact Sheets and any other promotional material will only have 1800 052 222 number listed as the free phone contact.
